Security Guidelines 2011

The Central Park Police have reminded us not to allow unattended bags at the Skate Circle, because they are vulnerable to being stolen. We are a close knit community and things are fairly safe inside the Skate Circle, but there are many non-skaters coming through the area and this is not a perfect world.

The police recommend that you do not bring valuables into the park. It makes sense to leave your new digital camera, video cam, smart phone, iPod, jewelry and other expensive items at home; unless you intend to keep them in your possession at all times. This will be difficult if you are skating, because we insist that skaters not try to dance in the Circle while wearing backpacks.

Please try to keep your wallet and house keys on your person at all times—invest in a small fanny pack or a belt bag to wear around your waist. We recommend that you bring a small padlock and use it to lock your backpack to the chains attached

to the benches in the baggage area next to the DJ booth.

If you insist on keeping your backpacks on the fence, please do not hang the bag from the top of the fence—lock it to the bottom of the fence—but please lock up your bags. It is easy to see someone rummaging through your bag, but if they walk out of the Circle with it, no one will notice until it is too late.

Small bags and women's purses are particularly vulnerable. Try to leave bags like that in a friend's backpack that is locked to one of the chains in the baggage area. In an emergency, you might want to speak to one of our skate guards about special security arrangements inside the DJ booth. The best protection is to get into the habit of always locking your bag.

We hope that by taking these additional precautions, no one else will suffer the loss of their property this season. After all, we come here to play and forget our worries.

THE STATE OF THE SKATE

by Lezly Ziering, President, CPDSA

Welcome to all our wonderful brothers and sisters-in-skate, joining us for our 17th season as a premier roller skating organization. We love you all—you mean so much to the Central Park Dance Skaters Association. Your support this season has been heart-warming and has made at least the beginning of this season possible when it seemed most bleak. With your support we did raise enough capital to take us through the first half of our season. That doesn't mean we are completely in the black—we still have to raise the funds for the other half of our budget for the 2011 season. I am confident that we will prevail and I hope that this

Memorial Weekend fund raiser will take us up another big notch in that direction.

We have some exciting news to report about the 2011 Adrenaline Awards. As you may know, a panel of judges nominates talented people to compete in many sport and artistic categories, and then the public votes and chooses a 1st place (Gold), 2nd place (Silver), and 3rd place (Bronze) winner out of five finalists in numerous categories—such as best Male skater best Female Group, Photographer, Cinematographer, Costumer, Skate Venue, Skate Train and more. One of the big winners this season was our own Harry Gaskin, who won

the Gold for Best Step Dance Choreographer in the US of A. Another standout, seen often in the Skate Circle, was the all girl crew “Sisters In Motion,” who grabbed the gold for best Skate Group. Our congratulations to these hard working and talented skaters who took home the trophies and prize money this year!!!

Last but not least—here's an exclusive: Crazy Legs Skate Club will close for July and August this year. As those of you, who have skated with us over the last two summers know, our venue is often sweltering, since there are fans, but no air conditioning, the resulting drop in attendance makes it

The View from Skaters Road

by Bob Nichols

Many thanks must go to you—the New York roller skating community—for your generosity in our time of need. Mark Wolf, our CPDSA treasurer, came to us at the beginning of this year with the disturbing news that we did not have the funds to open up at the beginning of the season. You skaters took up the cause of the CPDSA—free outdoor roller skating to music in Central Park—and made it possible for us to get underway. Thank You!

In addition to our regular expenses for permits, equipment repair and maintenance, storage, transportation and other costs, we have a long term goal that has proven elusive for us. That goal is to improve the surface we skate on.

If you are a regular at the Circle you know how difficult it is to dance skate on our rough and pitted pavement; it takes a toll on our knees, hips and ankles every time we are out there. Our portion of Skaters Road (officially Dead Road) has not been repaved since 1994, when we first reached an agreement with the Parks Department for the CPDSA to operate our Skate Circle. At that time, we were promised a protective coating, much like the surface of the volleyball courts, on our whole area. What we got instead was a toxic creosote based driveway sealer that threatened to poison us all until—after six weeks—the fumes finally dissipated enough for us to safely skate there.

Whether this coating was the result of colossal incompetence, ineptitude or if it was the

parting shot from a mayoral administration that had failed to throw us out of the park, we will never know, but the result is still the same, our skating surface has not weathered well over the years. Despite our repeated efforts to patch the worst of it, cracks continue to open and special events using our area continue to cause damage to the pavement.

We believe that until we are able to resurface our skating area and present others who use the site for their events with a well maintained and clearly demarcated rink, we will never get the respect from them to treat our surface gently. Special events that set up in our place for a day or two must be led to realize that they are occupying a skating rink and not a parking lot.

All this is easy—all it takes is money, a considerable amount of money, more than we can normally raise in a season. We need some benefactors (“Angels” as they are called in the theater) to invest in the professional repair and resurfacing of our pavement. This is not an impossibility—work far beyond the scope of our needs was done last fall on the volleyball courts at the south end of the same road we occupy. What we need is the same kind of interest and generosity directed at our interests and needs. The resurfacing process is not a long term operation, it can be accomplished in just a few days, without us having to miss a weekend. All it takes is the will to do it and enough money to make it happen.

The Skate Circle Lives!
